

REDINTEGRO

Health & Safety Policy

Redintegro Environmental provides independent training, auditing and consultancy services to waste producers and the waste and resource management industry.

We are committed to constantly evaluate health and safety risks and opportunities, comply with all applicable H & S legislation and carry out all services and site visits with safety in mind first and foremost.

We will:

- Carry out all services and site visits with safety in mind at all times.
- Wear appropriate PPE required by the sites being visited.
- Comply with health and safety legislation.
- Share incident learnings with clients where appropriate.
- Review practices and processes periodically to ensure changes are assessed.
- Produce risk assessments for applicable tasks such as waste compositional analysis.
- Contribute to raising Near Miss reports whilst on client/supplier sites.
- Review industry body and regulatory information to contribute to improving standards.
- Create an environment that supports health and wellbeing of all.
