

WASTE ASSURE TRAINING COURSE

Overview

The **Waste Assure Course** is designed to support business environmental, carbon and sustainability goals by providing a comprehensive immersion into the waste and resource industry, obligations of all parties in the chain, waste routes, treatment technologies, hazardous waste management, sustainable best practice, duty of care, legislative compliance / due diligence, principles of life cycle impacts and circular economy.

The course includes but goes beyond, the [CIWM's Waste Smart](#) course. If desired a bolt-on module covering future government policy and legislative changes and their potential impacts may be added.

Courses are delivered by subject matter experts with over 28 years industry experience.

Attendance

Who should attend: The Waste Assure Course is ideal for any managers or supervisors who influence frontline waste or cleaning teams, HSE/sustainability managers, contractors, and facilities managers.

Method of delivery: The course can be delivered at a premises of your choice or online. Allow 6 hours including breaks.

Certification: Delegates will complete a CIWM multiple choice test paper at the end of the course, which will be marked and certificated by CIWM upon passing.

Delegate Testimonial

"The waste sessions presented across our FM, Project and Specialist Services teams were a superb insight into legislation, compliance, risk management and gave our teams the take-away knowledge and understanding of many aspects of the waste industry. Superbly presented, encouraging interaction and engagement to challenge the audience and make us all think differently about this very important subject and our responsibilities in managing our waste" **Area Workplace Manager – UK wide Financial Services client.**
